*News of some of the Lord's work in Northern Peru*

Strong Tower Christian School yesterday held it's "Mother's Day" celebration with participation of all the classes. There was a great turnout to hear the kids perform and of course the opportunity was taken to share the Gospel. The days missed due to the rain will be made up over the course of the next few months and the schedule is running smoothly. Yaneth, one of the new teachers who is not yet a believer has asked Crystal to take her through one of our Evangelistic Bible studies. Please pray for her salvation. Jonathan and Jorge our Christian Education teachers are visiting the home of ST students and several families have requested regular visits to read the Bible with them.

Three siblings, Milagros, Esger and Rosita came to us from very difficult circumstances three years ago this month, they have flourish in all aspects of their growth, especially spiritually, and we praise that Lord that finally the very sluggish wheels of the judicial system have churned sufficiently so that they will soon be legally declared wards of the State and be available for adoption. Please pray the Lord will prepare the way for their adoption should that be His will.

The rains have gone away! We praise the Lord for the generous response of His people in making funds available to assist many who were adversely affected by them. Several reconstruction projects have been completed and several families are receiving assistance to get them through these tough times until their next crops can be harvested.
