

Morning Star Child Reach Ministries News Bulletin

September 11th, 2011

Looking Forward

As we look forward to the infrastructure needed to continue with the expansion of the Strong Tower Christian School, the architect began yesterday to outline the area (left) where the next building will be erected to provide offices and two new classrooms for the 2012 school year. Not only does the school minister daily to the students themselves, but has also been an excellent avenue into their homes and hearts of their families. The materials

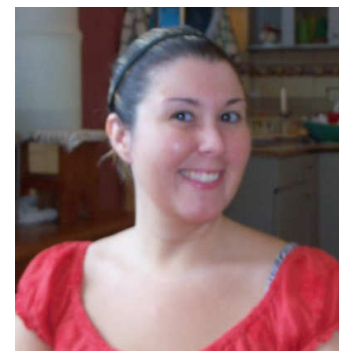

used in this new building will be concrete and brick thereby requiring an earlier start to the construction. Our prayer is that the Lord will provide the funding as well as a group of volunteers (carpenters, painters, electricians, tile setters, dishwashers, etc) to come in January and February and do the finish work once the general structure has been erected. If you are interested in participating in this project please contact us at info@morningstarperu.org.

Legal Matters We would like to request you pray for Claudia (green T-shirt) & Perla both of whom have upcoming court appearances to testify against their assailants. Claudia just last week accepted the Lord as did Perla the week before that. Both are doing well in school and we are grateful to the Lord for each new soul He brings into His kingdom through Morningstar Children's Home.

Also...a very warm **WELCOME** to Lauren Turner, our new volunteer who just arrived yesterday and will be serving with us for 5 months. Thank you for your continued prayers on our behalf.
