Morningstar Childreach Ministries News Bulletin

October 2nd, 2012

SPRING HAS ARRIVED!

Strong Tower Christian School held its annual "SPRING PICNIC" at the nearby sports complex which City Hall allows us to use for such occasions. Beyond just a plain good time and chance to tighten bonds of friendship amongst the families whose children attend the school as well as the staff, there is always the cherished opportunity to preach the Gospel that is able to bring change into their lives. This year was no exception as biggest turn out to date (over 200) listened attentively.

At the beginning of the month we were notified by the adoption authorities that both

Daniel and Claudia had been designated for adoption. The Christian couple who arrived for Daniel, after a very difficult decision making process concluded that it was not the Lord's will to adopt him and hence he continues on at Morningstar where we continue to monitor his development and provide the best care available for his particular medical issues. As for Claudia, we are awaiting the arrival of the couple she has been designated to. We ask you to pray for each of the children at Morningstar and the adequate resolution of each of their cases and their intricacies. We continue to await the Lord's provision of house parents for House #2. With her time in Peru limited by her tourist visa, Shula is fulfilling her desire to acquaint herself with the various aspects of the ministry in hopes of being better equipped to make a decision regarding future involvement here. We asked Carlos and Gloria Sanchez to assume the parenting of House #2 and continue to seek the Lord leading for the future.

The youth of the assembly here hosted a Spring Banquet last Saturday night, using the opportunity to invite friends to join them for an evening of special music, games and a message from God's Word. Attendance on Sundays continues to grow and the Lord continues to bless.

Thank you for your interest and support of the ministry here.
