

Rising Star

News of some of the Lord's work in Northern Peru

Daniela turned 7 July 25th! She is a very bright and happy member of our Morning Star family. She is one of three siblings whose parents visit every Friday, however since arriving at Morning Star in February, they have not made significant progress in addressing issues the family court judge laid out as requirements for future custody. It is hard to watch them continue to be hopeful that their parents will step up and be responsible. Providing a loving and secure environment for them regardless of their parent's actions is our priority while helping them learn to trust the Lord who holds their future in His hands.

July was a very challenging month as the financial burden of both Morning Star and Strong Tower Christian School came to a critical point. The Lord has impressed us through this experience that we need to be more forthcoming with making His people who partner with us in this ministry more aware of the challenges we face with operating structured programs that require planning ahead and counting the cost involved in commitments we undertake. We praise Him that in the end He is sovereign and continues to provide through those like you who have responded to the needs here so that we can continue with the work He has placed before us. This is the time of the year when we must begin to plan and structure the 2018 school year. Staffing, student population and budget concerns are all factors that must be considered as we seek to be responsible and accountable stewards of the resources He has placed at our disposal to glorify Him.
