SUMMER MEANS VACATIONS

Morning Star house parents Jorge and Margarita and their two children are on vacation this week. We've been juggling schedules in their absence to care for the kids. Everyone is out of school. Just yesterday I discovered quite by accident that the entire judicial system takes their one month a year vacation during the month of February! Quite uncanny to say the least. This is the first time we've heard of this, but it means no cases are tended to so all legal matters are put on hold until March 1st. Pretty wild huh?

AND HOT DAYS!!!

So Carol got a pool, and their morning English class is held in the water. English only is allowed in the pool. The kids are picking it up pretty quickly while they have a great time.

New water system was installed which will suffice for the entire compound for many years to come.

ARACELI

Thank you for your prayers!
