

Rising Star

News of some of the Lord's work in Northern Peru

New Schools.....New Challenges This is the first year that Morning Star children have all been educated off campus. It is a very different experience as the local state schools are very much into pomp and ceremony and extra activities, however it can be a valuable experience as the kids are faced with applying their behavioral training in a not so positive environment and are challenged to seek to please the Lord regardless of peer pressure. So far they are adapting well and although the daily routine to integrate the various drop off and pick up schedules is a challenge the staff is handling it all quite well.

Speaking of peer pressure.....the negative aspect of which brought Dayana to us a year ago will also be her main challenge in the months to come. Her mother was granted custody of her once again and this month she returned home. She lives only about an hour away and has already made the effort to come back for a visit and attend church over the weekend. We thank the Lord that He touched her heart during her yearlong stay at Morning Star, but as a 14 yearold in a new school and in touch with old friends she needs to be upheld in prayer as she now faces living out her new faith in a less protected environment.

Rosita's Birthday The local water park is a big hit with Morning Star kids and most chose it as the location for their birthday celebration. Rosita was no exception as she turned 9 in April. Another family joined us as their daughter's birthday was that day as well and it was nice to enjoy the fun and fellowship together.

We are very thankful for all the Lord is doing here and for all those who support the ministry here with their prayers and giving.

The Staff at Morningstar
