"Morning Star" Children's Home News Bulletin

May 30th, 2007

Having just returned from a visit to the US there seems to be so much to catch up on. We continue to be overfilled, and wondering what the Lord has in store for Morning Star.

Gracie who is at home with us was twice the size we left her. Tom's mother as well as Alyssa cared for her in our absence and she is very responsive for her age, undoubtedly due to all the personal attention.

Out at the Children's Home, the children continue to grow, it's so amazing to see them singing during the meetings, although they can't read both Aracelli and Mary Carmen have learned the words to many of the songs used for worship. We found Nicole walking and apparently this has brought her out of her shell as she's now very happy, laughing any chance she gets. Alex follows close behind, now walking as she holds on to things. Mateo's surgeon has decided that since the hernia has not advanced it would be best to wait until after he is a year old.

We continue to wait upon the Lord for His direction and provision for future development. The need for more space and personnel is a constant, and so it's a challenge to continually seek His wisdom on priorities and in conjunction with the school, know what projects He would have us move ahead on and when.

So many we encountered during our visit to the US were so generous in getting babies and children's clothes together we were not able to bring it all at once, but Lord willing the short term missions team from Hiawassa Bible Chapel that is coming August will be able to bring the rest. We value your partnership in these ministries and thank you so much for keeping us all in your prayers.
