

Rising Star

News of some of the Lord's work in Northern Peru

After 5 years at Morning Star, Milagros turned 18 and aged out of our facility. The Lord opened the door to a Christian Halfway house specifically designed for girls like her and on July 22nd Tom and Carol drove her down to the city of Trujillo for her induction ceremony. For the next three years she will continue her education, learn life skills and continue to be discipled in her faith and walk with the Lord. We are very thankful for your prayers and the Lord's answer to them by providing this option for her. After the first two months of adaptation she will be allowed to visit Morning Star on occasion as her two siblings Esgar (14) and Rosita (10) remain with us and although they miss their sister they also are happy she has this opportunity.

Every young girl in most latin cultures looks forward to their "Quinceañera", their 15th birthday celebration that marks their passage into society. Having been declared and ward of the state last year and not having contact with any extended family, Monica was made to feel loved

and supported by her Morning Star family as she was joined by her friends both from school and the youth group the night of the 26th for her party. Everyone pitched in with the preparations and the evening was very special for her!

We appreciate your prayers on behalf of the Lord's work at Morning Star!
